

Introduction

Beiseker Fire Department re-opened on 1 January 2021. It provides fire suppression, fire prevention, rescue and medical first response to the Village

of Beiseker and surrounding area through an agreement with Rocky View County.

Overall, in calendar year 2021, firefighters volunteered 34 488 man hours to provide around the clock emergency response to the residents of Beiseker and the surrounding area.

Members and Training

Number	Position
1	Chief
1	Deputy Chief
1	Chaplain
1	Tender Driver
14	Captains
66	Firefighters
84	Total

Of these

members, qualifications include:

31x Members

qualified to NFPA 1001 Standard for Professional Firefighters (Proboard and IFSAC)

13x Members

qualified as Primary Care Paramedics

22x Members

Qualified as Emergency Medical Responders

16x Members

qualified as either Advanced First Aid or Medical First

Responder

Other qualification held by members of the department include NFPA 1006 High Angle Rescue, 1002 pump operator, 1041 Fire Service Instructor, 1031 Fire Inspector, 1035 Fire and Life Safety Educator, 1002 Arial Apparatus Operator, 1021 Fire Officer, and 472/1072 Hazardous Material Operations (Proboard and IFSAC).

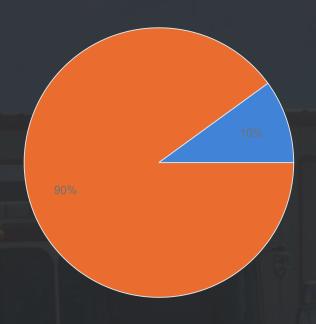

With the support of the International Fire Services Training Association (IFSTA), the BFD currently delivers industry standard training in the following areas for internal qualification (not tested for certification by Municipal Affairs): 1001 Firefighter Level 1&2 1002 Pump Operator 1041 Fire Service Instructor 1021 Fire officer Principles of Vehicle Extrication Structural Fire Initial Response and Strategy Fire Service Hydraulics and Water Supply

As well, the BFD was able to facilitate two serials of Advanced First Aid for members, qualifying 14 individuls.

Additionally, structured medical training and fire training occurs on each shift to ensure all firefighters are adequately prepared to respond to emergencies.

Staffing

In Rocky View County a fully staffed engine is considered to have four firefighters. On 68% percent of shifts BFD possessed the capabliity to meet this with staff at the hall only. This rises to 90% with the addition of respond from home members on call . The fire hall was staffed to capacity (5 FFs) 38% of the time. On 100% of days, crews were staffed to a level to respond to any emergency within the village, or to send a rescue truck or tender into the county.

- Adequate staffing for county engine
- Adequate Staffing for village, or for county rescue and tender

66%

- Fire
- Motor Vehicle Collision 12
- Gas leak/Odour 0
- Medical 66

2021 Emergency Responses

The Beiseker Fire Department conducted 51 runs over 2021. Of these, 20 runs occurred in Rocky View County, and 31 runs occurred within the village. While the majority of calls are related to medical assistance, the BFD also responded to the following:

- 1x Vehicle Fire
- 6x Motor Vehicle Collision
- 3x Outside Fire
- 2x Structure Fire
- 2x Gas leak/ Odour
- 4x Brush/grass fire
- in Brasil, grass in

1x Explosion

TOTAL EXPENSES		r	85,302.31	•	88,942.21	•	62,594.75	•	66,004.00	•	3,409.7
P NETFIRES	ERVICES	-	(31,753.82)	-	(84,867.81)	-	(54,184.75)	*	(65,004.00)	-	(10.9

As per the detailed breakdown above, Beiseker Fire Department brought in 8410.00 in 2021, and expended 62 594.75, with a net cost of 54 184.75. This works out to the provision of fire services for \$66.16 per resident of the village. Additional funding was provided by the generous support of the community and organizations:

\$5000 from Beiseker Chamber Commerce for

Primary Care Paramedic Program

\$1000 from Cooperators Insurance for fire

equipmen

\$40000 from Calgary Foundation for purchase of

bunker gea

\$12000

(possible) in additional grants for the purchase of fire equipment

\$1000 raised by firefighter's bottle drive

Looking Toward 2022

The outlook
for 2022 is optimistic. As the BFD was
restricted to the village for the first
four months of 2021, the BFD anticipates
greater revenue from county and
highway calls in calendar year 2022. As well,
2022 will see the introduction of
a structured fire training curriculum to
standardize on shift training across
all captains. Furthermore, summer 2022 will
see the completion of BFD's in
house 1001 course with certification testing
and live fire training being
carried out in partnership with Olds Fire
Department.

This will allow BFD to qualify 20 firefighters to IFSAC and Proboard standards of Professional
Firefighter. It will also allow BFD to retain those newly trained firefighters for one year post testing. In early 2022, BFD will be moving medical response capabilities to the Primary Care Paramedic level under the Alberta Medical
First Response Program. Current level of service is emergency medical responder.

Looking Toward 2022

During the

majority of 2021, Covid restrictions prevented many community engagement activities that would otherwise have occurred. BFD is hopeful that 2022 will allow us to conduct evets such pancake breakfasts, school visits, smoke detector checks, blood pressure clinics and open houses. It should be noted however, that as Station 130 is a community resource, no member of the community will ever be turned away provided they adhere to public health guidelines.

Of

immediate concern is the state of BFD's vehicle extrication tools. These tools were donated by STARS air ambulance in the 1990's and demonstrated on a recent call that they are inadequate to ensure the safe and timely extrication of those who become trapped in a vehicle. While fundraising is a viable option to offset the cost of long term project such as SCBA bottles or replacement apparatus, the immediacy of this issue precludes the time and uncertainty associated with grants and fundraising.

The Beiseker Fire Department would like to thank Mayor and Council for their support as well as several community groups and the residents of the village. Your ongoing interest in the safety of your community allows the BFD to continue in its goals of ensuring that the village of Beiseker receives the best possible emergency response and planning.
